

Garden 1 By Stella, Maxen, Freddie, Emma

In term 2, we crushed egg shells for garden fertilizer. Freddie dug the compost to fill the new garden. Stella planted silverbeet and Freddie was planting cauliflower seedlings, and in awesome news Stella put up the net so the possums, weka and pukeko can't get in. Stella and Emma stitched up the holes in the netting so the little birds can't get in. Freddie and Maxen also did a good job raking up the leaves by the paths and by the big tree and they poured them in our new garden, garden number 4.

Garden 2 By Corben, Willow and Jasmine

We planted potatoes in garden 2 and we enjoyed it. We planted two rows each and some of the potatoes were pink. A week later we mounded the potatoes with dirt from Mrs Giddy's school house because there was a big dirt pile there and we wheelbarrowed back and forth three times to get enough dirt to mound the potatoes. Two weeks later we went into the sheep paddock with Lucia. Our pet sheep had been shorn and there was wool on the ground so we picked it up and threw it over the fence into a pile. We mounded the potatoes again this time with wool. On the day we put the wool around the potatoes we made a frost cloth shelter to protect the potatoes during the winter months.

Garden 3 By Ruby, Annie, Henry

This term Maxen, Annie and I were looking after the garden. I was stapling the net up with a staple gun. Willow held the net up for me. Annie and I were pulling the weeds out and planting broad beans and peas in the soil. I also cut some rosemary for Mrs Giddy. Annie cleaned all the garden tools. Annie sprinkled the egg shells around some of the plants to keep the slugs out while I was digging out the good compost to put in our new garden. Mrs Giddy changed the groups so now Henry is in our group and Maxen has moved to garden one.
